Hello Guys,

Today I want to tell you something about my last travel to Denmark.

I love Denmark because of the landscape and the sea.

We made a lot of travel to Denmark. There are cool sand sculptures.

They are very big and every year you can travel to the place where they

are. The sand sculptures are made with a lot of

love. Also I went to the airplanes show

On the airplanes show are little airplane which made

a little show at the sky. The airplanes were very

colourful and it was really funny to see how they

flew around at the sky. Everytime I come to

Denmark I must go to the sea and go swimming

in it. I love the smell of the water sooooo much! My dogs

also love the sand. Buffy plays every-

time with the sand when we are on the see.

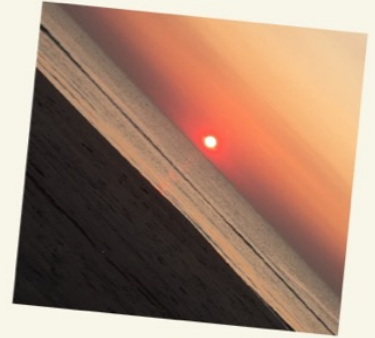

Shakira likes the Sand and the water to.

So If you want to go on a trip with your

dogs, Denmark is the best choice.

I hope you like my new blog.

Goodbye Guys
